PROFESSIONAL SUMMARY

Motivated and detail-oriented B.Sc Computer Science graduate (2026) with hands-on experience in building responsive and user-friendly web applications. Proficient in HTML, CSS, JavaScript, and React JS with a strong foundation in modern front-end development practices. Eager to contribute to a dynamic team and grow as a professional front-end developer.

TECHNICAL SKILLS

Languages & Markup:	HTML5, CSS3, JavaScript
Libraries & Frameworks:	React.js, Bootstrap
Tools & Platforms:	Git, GitHub, VS Code
Other Concepts:	Responsive Web Design, DOM Manipulation, RESTful APIs
Programming:	Python Language

PROJECTS

Speech-Enabled Smart Recipe Recommendation System

College final year Project

- Developed a full-stack web application using HTML, CSS, and JavaScript on the front end and Python (Flask) on the back end to deliver real-time recipe recommendations based on user voice input.
- Integrated the Web Speech API to capture and transcribe spoken queries, passing recognized keywords to the Flask server for dynamic recipe lookup.
- Connected to TheMealDB API to fetch and display recipe details including ingredients, instructions, and meal thumbnails based on processed voice input.
- Designed and managed a SQLite database to store user search history and favourite recipes, enabling personalised recommendations across sessions.

Personal Portfolio Website

Personal Project

- Designed and developed a fully responsive personal portfolio website to showcase skills, projects, and achievements.
- Built using HTML5, CSS3, and JavaScript with Bootstrap for mobile-first responsive layout and cross-browser compatibility.
- Incorporated smooth scroll animations, interactive navigation, and contact form functionality for enhanced user engagement.
- Deployed the website on GitHub Pages ensuring public accessibility and a version-controlled codebase.

EDUCATION

B.Sc (Computer Science)

2023 - 2026

Government Arts and Science College - Avinashi

CGPA : 8.0 / 10.0

- Relevant Coursework:** Data Structures, Web Technologies, Database Management Systems, Software Engineering, Object-Oriented Programming.

CERTIFICATIONS

Fundamentals of Web Development

2025

Issued by: Edunet Foundation

- Completed structured training covering core web development concepts including HTML, CSS, JavaScript, and responsive design principles.

Basics of Python

2024

Issued by: Infosys Springboard

- Completed foundational training in Python programming covering core concepts including variables, data types, control flow, functions, and object-oriented programming principles.

TECHNICAL ACTIVITIES

- Currently learning and building skills in frontend and backend web development.
- Developing skills in Responsive Web Design through FreeCodeCamp's hands-on learning platform.
